

What others have said about their Yasawa experience

Essential Women's Journey 2011

Life Changing

We think it best to leave this one to those women who participated in our last retreat in 2008. Here's what they had to say...

Such a sensational week! The people are so beautiful and along with the wonderful environment they managed to reach deep within us all and expose our inner beauty. Angela and Inta took us on a journey of a lifetime for which I shall be eternally grateful, along with my family who now have, in my daughter's words "a new Mum".

Yasawa will stay in my heart for ever.

Ruth Surian, 2008

To anyone who may be 'thinking' about attending 'The Essential Women's Journey' ... STOP THINKING and just do it!!!! What are you waiting for? Seriously, I have thanked myself every day since returning! I met some truly wonderful women who will remain friends for a lifetime and the people of Yasawa are simply beautiful ... not to mention the food – oh the food, there's only so much lobster one can manage really.

Tober Solito, 2008

I came on this Retreat with no expectations and no idea what it was really about, but now I leave with mothers, sisters and friends, a family of Fijians and an open heart and soul full of inspiration, vision, inner strength, courage and joy. I am leaving Fiji with so, SO much and I thank you for your guidance and your loving care ... This Fijian week will live on in me forever and guide me through all things to come. Thank you Inta and Angela, from the bottom of my heart."

Mellanie Shaylor 2008
